The diagram is a genealogical chart template. It consists of a central vertical line that branches out to the left and right. On the left side, there are two horizontal lines representing the sire and dam. On the right side, there are two horizontal lines representing the sire and dam. Each of these four lines further branches out to the right, leading to a total of eight horizontal lines, which represent the registration, sire, and dam for each of the four animals in the pedigree. The lines are red and the boxes are empty, indicating a template for recording data.
